

RESOLUTION NO. 2018-05

A RESOLUTION OF THE OTTER ROCK WATER BOARD REDUCING THEIR ADOPTED WATER CONNECTION APPLICATION FEE FOR THE 2018/2019 FISCAL YEAR.

RECITALS:

The Otter Rock Water Board established fees and charges following the 2016/2017 Budget Hearings, after compliance with notice and advertising requirements of Oregon law.

In December 2016 the Board again advertised, reviewed and affirmed all such rates and charges.

In the 2017/2018 District Budget process the Board again advertised, reviewed and affirmed all such rates and charges.

Ordinance 2017-01 specifically authorizes the Otter Rock Water Board to amend rates and charges by Resolution.

ORS 264.312 requires notice to all customers when a fee is *increased*.

The Board desires to reduce the application fee for water service connection in anticipation of the adoption of System Development Charges (SDC's) at the Board's July 24, 2018 meeting.

NOW THEREFORE, BE IT RESOLVED, the Otter Rock Water Board does hereby set the application fee for connection to Otter Rock Water District Service to \$750.00. Any water service connection paid in the prior fiscal year (2017/2018) shall have the difference in application fee refunded to the owner. The applicant for water service remains responsible for all costs associated with connection. This resolution only impacts the application fee and does not excuse the payment of or order refund of any other fees and charges associated with connection or as otherwise required by District regulations.

BE IT FURTHER RESOLVED that the Board shall advertise a review of all District water rates and charges for December 2018.

PASSED AND APPROVED BY THE OTTER ROCK WATER BOARD this 12th day of June 2018.

ROD ZAWALSKI, President

Mayor
